I am excited to apply for the sUAS flight operator at Wing. I am a skilled A&P mechanic, UAS technician, and certified scrum master with strong attention to detail and problem-solving abilities. Accustomed to working under pressure and seeking to bring well-rounded technical, UAS expertise to challenging roles. With my experience in drone operations/maintenance and my passion for aerial photography, I believe I would be an excellent addition to your team.

As a skilled drone operator, I have maintained and flown various types of unmanned aerial vehicles (UAVs) and have experience in both manual and automated flight. I have also completed training on safety protocols and FAA regulations, Wing Aircraft Mx Level 1 & 2 qualified on both 7000W-A & 7000W-B airframes ensuring that all flights are conducted in compliance with FAA and industry standards.

My experience in Wing aircraft maintenance, and aerial photography has allowed me to understand the mode of operations not only on Wing aircraft but on FPV drones and other drone brands. In addition to my technical skills, I possess excellent communication and teamwork abilities. I understand the importance of collaboration and open communication with team members and clients to ensure successful project outcomes.

I am excited about the opportunity to join the Wing team and contribute to the success of your drone operations. Thank you for considering my application. I look forward to discussing my qualifications further in an interview.

Sincerely
Charles L. Isoza
